

TEDDY'S VOICE IS IN GOOD ORDER

He Made Four Thousand People Hear Him At Akron, Today.

BRYAN STIRS NEW YORK

He Is In the Best of Health and Seems to Enjoy Himself.

ANOTHER RALLY IN GOTHAM

Akron, O., Oct. 18.—Gov. Roosevelt's voice was in good order when he attempted to compete here this morning with several engines in the yards. Four thousand people turned out.

Has Confidence in His Voice. Cleveland, O., Oct. 18.—It is possible that Gov. Roosevelt's voice will fail him before he finishes the work mapped out for him by the national committee, but the Governor himself says he will not have to give it up. Last night at Columbus he was joined by Dr. Holbrook Curtis of New York, specialist in throat trouble, who at once began treating his strained and inflamed vocal organs.

Governor Roosevelt is confident of the lasting qualities of his voice. "I shall finish the campaign as mapped out," he said this morning.

Amos Knapp, the Governor's strong man, has been doctoring the inflamed throat all along, especially since the tour led the Governor into the dust of open air meetings in the Southeast.

Schenectady, N. Y., Oct. 18.—Fifteen thousand welcomed Bryan here this morning. He talked on the general issues of the campaign to many employees of the General Electric company.

Mr. Bryan did not retire last night until after midnight. When he went into his private room after the meetings his underclothing, vest and the lining of his coat were saturated with perspiration engendered by the nervous energy of addressing the four big meetings. He complained of feeling a little tired, and it was thought that he had a chill, but this morning he awoke refreshed, in apparently the best of health. He wore a small checked suit, a soft hat, a negligee shirt and a small polka-dot tie.

Three Leading Democrats. New York, Oct. 18.—William J. Bryan, David B. Hill, and Bourke Cockran will speak from the platform in Madison Square Garden on the night of October 27th. Bryan returns to the city on that date from his tour of the state. The presence of the three foremost orators in the democratic ranks on the same platform will be one of the most remarkable features of a series of mass-meetings which promises to eclipse in every way the reception given Bryan on Tuesday night by Tammany Hall.

It will be the first time that the leaders of the different divisions of the democracy have come together. Hill, as leader of the old-time democracy, and Cockran, representing the gold democrats, have not spoken in Manhattan during the campaign.

The meeting in Madison Square Garden will be one of the six that will be held under the auspices of the National Association of Democratic clubs. These meetings will be national in scope.

In all of the large cities from the Atlantic to the Pacific mass-meetings under the direction of the National association will be held simultaneously with those in New York.

Statement from Jones. Chicago, Oct. 18.—Democratic Chairman Jones issued a statement this morning on the settlement of the coal strike saying that it clearly indicates to his mind that he trusts are beginning to have a wholesome regard for public opinion and would not have yielded to the demands of the men except for fear of the consequences that might be disastrous to the administration which is a friend of the trusts. It is a hopeful sign for democracy.

Pettigrew Will Be There. Madison, S. D., Oct. 18.—Hanna opened the day at Flandreau with an Indian demonstration. At Egan he said to the audience of two hundred that when McKinley was re-elected he (Hanna) will feel out of a job for then Bryanism will be dead as a door nail. There was a good sized audience here. Tonight Hanna speaks in Pettigrew's home, Sioux Falls. Pettigrew will be there.

Roosevelt at Canton. Canton, O., Oct. 18.—Governor Roosevelt spoke to three thousand in the Tabernacle eulogizing the president's administration.

Plague in San Francisco. San Francisco, Oct. 18.—Three deaths in Chinatown have been certified as due to the bubonic plague.

REBEL GENERAL IS CAPTURED.

Alvarez and Staff Surprised on Island of Mindanao. Manila, Oct. 18.—Under cover of a stormy night Capt. Elliot of the Fortieth infantry surprised the rebel headquarters near Oroquieta, island of Mindanao, and captured without fighting Gen. Alvarez, with his staff and twenty-five soldiers. The capture is important and will tend to pacify the district. Alvarez had been a long time provoking hostilities in Mindanao.

SMALL POX AT IRON RIVER.

Lumber Camps in that Vicinity Are All Infected. Iron River, Wis., Oct. 18.—There are two cases of small pox in one of the Wilkinson camps, a few miles out of town. The board of health is quarantining the infected camp. It looks as if Iron River might have a hard battle with the disease on account of the steady influx of strangers. Two cases are reported at Escanaba.

MOB IN KENTUCKY WREAKS VENGEANCE

Colored Man Taken From a County Jail and Hanged to the First Big Tree.

Elkton, Ky., Oct. 18.—Fratrus Warfield, colored, aged 23, was taken from the county jail by a mob last night and hanged to a tree. Tuesday he frightened a white farmer's wife by demanding admittance to her home.

BAR BIBLE FROM PUBLIC SCHOOL

Chicago Trustees of Education Refuse To Permit It To Be Read to the Children.

Chicago, Oct. 18.—By a vote of 13 to 6 the trustees of the board of education resolved last night not to permit the introduction of "Readings from the Bible, Selected for the Public Schools," into the schools of Chicago. This vote was the first taken since the book was brought to the first attention of the board. For nearly two years attempts have been made to induce the school management committee to recommend that the book be placed on the list of supplementary reading. It was urged that the book could be read by the teacher without comment, and that it would prove of immense moral value in the education of children.

ACCEPT LIPTON'S CHALLENGE.

New York Yacht Club Appoints a Committee to Arrange Match.

New York, Oct. 18.—Sir Thomas Lipton's challenge for the America's cup was accepted last night by the New York Yacht club. The committee is authorized to appoint a committee formally to accept the challenge of the Royal Ulster Yacht club, and arrange the terms of the proposed match.

GREAT RECEPTION FOR LA FOLLETTE

Extensive Preparations Under Way to Receive the Republican Candidate on October 25.

M. G. Jeffris goes to Clinton this evening and will speak at a rally given by the McKinley and La Follette club of that city.

Tomorrow night he will speak in Milwaukee upon the invitation of Chairman Bryant and Saturday he will be at Evansville. One week from today will take place one of the most enthusiastic gatherings of the campaign.

Hon. Robert M. La Follette will be here and speak in the Opera House. Great preparations are being made by the Young Men's Republican club to give him a most enthusiastic reception. There will be a torch-light procession, two or three bands and a general good time.

The republicans should wake up to the fact that they are not doing their speakers justice. Leslie M. Shaw remarked last night that there seemed to be very little enthusiasm displayed and he was very much afraid he would not have a good audience.

OSTEOPATHS AWAIT DECISION OF COURT

ATTORNEYS DISCUSS THE SCHOOLS OF PRACTICE.

Charles Quarles, in Defense of Dr. Thompson Speaks of the Fallibility of Materia Medica—Asst. Atty. Umbreit Says Defendant Has No Right to Use the Title "Doctor."

Milwaukee, Oct. 18.—"The graveyards are full of demonstrations," was one of the suggestive remarks made by Attorney Charles Quarles as he made his plea in the police court yesterday in the defense of Sven A. L. Thompson the osteopath who was charged with the practice of medicine without a license from the State Board of Medical Examiners, and the alleged illegal use of the title "Doctor." The trial was opened and closed and the announcement of the decision of Judge Neelen will be made Saturday morning.

Digs at Milwaukee Men. Mr. Quarles in the course of his argument made man ya significant dig at the medical profession, which wasn't in every case accepted as complimentary by the prosecution. In return Asst. Dist. Atty. A. C. Umbreit, defended the members of the state board, from what he thought a charge of "having sinister motives in their prosecution of the osteopaths," and added that the state law was framed for the defense of the people against "quack osteopaths, as well as against any other quacks."

One Count Was Dropped. The testimony was all in when the attorneys began their discussion of schools of medicine, and Mr. Umbreit opened for the state, showing that the prosecution had desired to hinge the prosecution of Thompson on one point alone, that of the illegal assumption of the title of "Doctor."

The count on the practice of medicine without a license was waived. He then showed briefly that the state was resting its case on the pamphlets the defendant had sent out, in which he defined osteopathy as a system of healing, without drugs. This definition Mr. Umbreit considered to be evidence as to the violation of the laws.

Osteopathy Upheld Elsewhere. Mr. Quarles followed by reading decisions which had been rendered in other states, sustaining osteopathy. He insisted that the present law as interpreted by his opponent, would tend to prevent the practice of trained nurses and Turkish bath attendants, for they prescribed no drugs and used no surgical instruments.

MORE MILLIONS FOR ROCKEFELLER

Rise in Standard Oil Stock Nets Him \$6,000,000—Will Declare 50 Per Cent Dividend.

New York, Oct. 18.—John D. Rockefeller became \$5,678,000 richer yesterday by the rise in value of his stock in the Standard Oil trust. His income upon his holdings has been 38 per cent. thus far this year. A 12 per cent. dividend will probably be soon declared, so that his dividends for the year will be 50 per cent. A little more figuring shows that when his 50 per cent. dividend for the year is added by his busy bees of clerks John D. Rockefeller will this year have profited \$17,000,000 on his original investment, without taking account of previous big advances in the stock. All of his interests considered Mr. Rockefeller's annual income is estimated at \$75,000,000. The czar of Russia is satisfied with a paltry \$12,000,000 annual income; the kaiser manages to subsist somehow on \$3,852,770, while the rulers of Spain and Italy and the queen of England together receive but \$6,000,000.

GOLD DEMOCRATS VOTE FOR M'KINLEY

Ellis B. Usher Says Nearly All of the Vote in Wisconsin Will Be for Him.

La Crosse, Wis., Oct. 18.—Ellis B. Usher, who for several years was chairman of the central democratic committee of the state, and who four years ago was also chairman of the gold democratic committee in this state, said today:

"It is being said that the gold democrats of 1896 are going for Bryan. Possibly a few will go that way but the percentage will be small. A small survey of Wisconsin gives a fair chance to size the situation up. Wisconsin sent four delegates-at-large to Chicago and later to Indianapolis in 1896. They were Senator William F. Viljas, General Brage, James G. Flanders and James J. Hogan. Mr. Hogan is the only one of the four who will not vote for McKinley and Roosevelt. "Where one gold democrat has gone to Bryan twenty have avowed themselves as republicans."

Mr. and Mrs. Frank Ranous left for their home in Fond du Lac this noon.

SUDDEN DEATH OF WILLIAM L. WILSON

WAS POSTMASTER GENERAL IN CLEVELAND'S CABINET.

Expires At His Home In Lexington, Va.—Won Renown By His Famous Tariff Bill—Retired From Politics To Devote Himself to Educational Matters.

Lexington, Va., Oct. 18.—Ex-Postmaster General William L. Wilson died suddenly this morning at ten o'clock.

William Lyne Wilson was born in Jefferson county, Virginia, May 3, 1843. He was educated at Columbian college and at the University of Virginia; served in the Confederate army, and after the war was professor of Latin in Columbian college for six years. He studied law at the same time and when

WILLIAM L. WILSON. (Ex-Postmaster General and Author of Tariff Bill.)

he was admitted to the bar, in 1871, he engaged in practice at Charlestown, W. Va.

He was a delegate to the Democratic national convention in 1880 and was a presidential elector in that year. In 1882 he became president of the University of West Virginia. On being elected as a Democrat to the house of representatives he resigned that office and took his seat Dec. 1, 1883.

As a member of the ways and means committee in 1888 he had much to do with framing the Mills tariff bill, passed in that session, and as chairman of the same committee in 1893 he was the principal author of the tariff bill known popularly by his name. He was nominated and confirmed as postmaster general to succeed Wilson S. Blissell, resigned.

GOOD SALES OF NEW TOBACCO.

Most of the Crop Has Found Buyers at Good Prices.

The buying of the new tobacco crop is quieting down some since the dry weather has prevented a close inspection of the sheds. Buyers are bidding, however, and sales are being made at about the prices heretofore quoted.

The Wisconsin Tobacco Reporter this week gives the names of framers selling about 1,500 acres that average very close to 8 1/2 cents, including twenty crops of more than ten acres each. The choice selections are getting pretty well picked up now and growers seem to have no difficulty in securing their asking price for desirable crops. It is quite probable that nearly three-fourths of the sound tobacco has already been contracted for.

Very little of the hail out or storm damaged leaf has been marketed. Some old goods are being lifted from first hands at from 9 to 11 cents. Eastern dealers who have arrived during the week are Gus Bemz of New York, L. Bremer of Philadelphia and C. G. Smith of Harrisburg. The shipments out of storage reach fifteen carloads, 725 cases, for the past week to all points. About 600 cases of cigar leaf were exported from New York during the same period.

Arrest an Alleged Forger.

Vincennes, Ind., Oct. 18.—Charged with having forged notes aggregating \$30,000, on farmers, a Christ was arrested here last night. Christ is from Knoxville, Ia., where he is said to have cashed the paper. Detectives followed him to Nebraska and Colorado. He then doubled back to his old home, where he spent a day and a night and then left, coming to Vincennes. Sheriff M. W. Davis of Knoxville took the prisoner home.

Flags Up on the Alabama.

Philadelphia, Pa., Oct. 18.—The battleship Alabama has gone into commission. The entire crew of 550, officers and men, were paraded on the forward deck when Capt. Willard H. Brownson, who will command the ship, read his orders and had the flag and his pennant raised.

It is expected that the battleship will remain in the Delaware river about two weeks and will then join the North Atlantic squadron.

SENATOR DAVIS MUCH BETTER.

Suffers from Blood Poisoning Due to a Silk Stocking.

St. Paul, Minn., Oct. 18.—United States Senator Davis, who was threatened with the loss of his right foot from blood poisoning, is rapidly improving. Dr. A. J. Stone performed an operation, which has proved a great relief. The poisoning was caused by a slight abrasion of a corn coming in contact with a black silk stocking. Hundreds of letters and telegrams from all parts of Europe and America have been received during the senator's illness.

ASHLAND GREETED BOB LA FOLLETTE

Enthusiastic Meeting Last Night—Itinerary of His Trip To Day—at Superior Tonight.

Ashland, Wis., Oct. 18.—One of the most successful days of the campaign being made by the republican candidate for governor came to a close in this city last night. At every little hamlet between here and Chippewa Falls crowds gathered at the stations altogether out of proportion to the normal population. Here the citizens fairly overreached themselves with their welcome.

A tremendous thunder of applause greeted Mr. La Follette as he stepped to the front. He said that the great change wrought by republican rule had been deeply impressed upon him as he rode in the procession and contrasted the scene which was presented with the one presented four years ago when he visited Ashland.

Mr. La Follette left Ashland at 8 o'clock this morning and will speak today at Bayfield, Washburn, Mason, Drummond, Hayward, Spooner, Shell Lake and conclude with a night meeting at Superior.

CORN SHREDDER BECAME CLOGGED

Serious Accident to August Infelt, a Farm Hand in the Town of Leyden.

August Infelt, a farm hand employed on the Fisher farm near Leyden, met with a serious accident this morning. He was operating a corn shredder which became clogged and he tried to remove the obstruction. The swiftly revolving knives caught his left hand cutting and tearing it in a dreadful manner. Fortunately for him he was able to get his hand out of the machine or he would have lost his whole arm.

The injured man was placed in a wagon and brought to this city. He was taken to the office of Dr. E. F. Woods, who found that all the bones in the hand were broken and the muscles and flesh torn loose making it a bad injury to dress. The doctor set the bones and moulded the flesh back into place and hopes to save the hand, although he may have to amputate the second finger. The thumb was not touched. Infelt was taken to Mrs. Henderson's hospital on South Main street where he could have good care.

The South Should Begin to Think.

Why the south should want a change from present conditions is beyond the power of reason to ferret out. Every southern state which gives its electoral vote to Bryan will do so because prejudice and tradition rule rather than reason or a consideration of the best interests either of the south or of the country as a whole. There never has been before in this country or in the world such prosperity as exists in the United States today. And the south is getting its full share of this prosperity. Of the 307 new textile mills which were reported by The American Wool and Cotton Reporter as having been begun to be constructed during the first six months of 1900 202 are in the south, of which 57 are in North Carolina, 50 in South Carolina and 42 in Georgia. Every vote for Bryan and free trade means a vote to put an end to mill construction in the south and to shut down most of the mills now open. It is time that the voters of the south began to cast their ballots for their own interests and for the interests of their section and their country instead of voting in deference to the prejudices of a past generation, prejudices, too, which were based on conditions which no longer exist.

Lumber Mills Busy.

There is a big demand for men in the northwest, particularly in Washington and Oregon. Circulars are being distributed in Chicago calling for 1,000 men at wages ranging from \$1.75 to \$4.25 per day. The demand for lumber caused by prosperous times in California and in expansion of trade across the Pacific, has done it.

VAN BUELOW TAKES HOHENLOHE'S PLACE

CHANCELLOR OF THE GERMAN CABINET HAS RESIGNED.

The Retiring Premier Criticizes the Kaiser's Impulsive Interference in the Far East—Parts From the Emperor With the Best of Good Feeling.

Berlin, Oct. 18.—The Koinische Zeitung asserts that Prince Hohenlohe has tendered his resignation as imperial chancellor and that it has been accepted. According to the same authority Emperor William has designated as the retiring chancellor's successor Count von Bulow, minister of foreign affairs.

Although rumors have been current for several days that Prince Hohenlohe intended to retire, little credence was given to any of them, since such reports had returned periodically for several years past. The fact is that neither the foreign office nor any other government department in Berlin knew until last evening of Prince Hohenlohe's retirement and Emperor William's approval of it.

Prince Hohenlohe has been chancellor of the German imperial ministry since October 1894, when he succeeded Count von Caprivi. His administration has not been marked by exceptional brilliancy, but he has preserved friendly relations with the powers, particularly Russia, and has proven a safe counsellor to the young kaiser.

Count von Bulow has long been regarded as the favorite of the kaiser, and as one of the rising diplomats of Europe. He has been especially active in furthering the kaiser's ambition for colonial empire, and has taken an active part in all negotiations to that end.

NEGOTIATIONS FOR PEACE HAVE BEGUN

Assertion Made by Chinese Minister in London—Washington State Department Uninformed.

London, Oct. 18.—The Chinese minister here, Sir Chih Chen Lo Feng Luh, asserts that peace negotiations have actually begun at Peking between the Chinese plenipotentiaries and the representatives of the powers in the tsung-li-yamen buildings, which, he adds, have been given over to the Chinese for that purpose.

Washington, October 18.—If any peace negotiations have begun in Peking, as asserted by the Chinese minister in London, they are simply of a very preliminary character, confined probably to the examination of the credentials of the officials appointed by the emperor to represent the imperial government.

JOHN SHERMAN IS SERIOUSLY ILL

Former Cabinet Minister and Senator is Suffering from a General Collapse.

Washington, Oct. 18.—Former Cabinet officer and Senator John Sherman is dangerously ill at his residence on K street in this city. The attack has taken the form of a general collapse, in part due to the general debility due to old age and to the effects of the serious illness which he suffered while on a trip to the West Indies two years ago. He never had fully recovered from that illness. Mrs. Sherman's death at the old homestead at Mansfield, O., where the family were staying during the summer, also had its effect on the venerable statesman, who deeply mourned her loss.

OOM PAUL'S LAST DESPERATE THROW

French Government Alarmed Over the Program Being Arranged to Receive the Boer President.

Paris, Oct. 18.—The cabinet is alarmed over the program to welcome Kruger which is being arranged. The government fears that the old man will set the country aflame. It is believed that he goes to Europe not as a refugee, but to make his last desperate throw. Botha and Dewet have promised to resist until the result is known.

Death entered the home of George Dykeman on Monday morning, October 8, and removed the wife and mother, Lillie Wilkins was born September 13, 1859, and was married to Willard Brown March 29, 1878. Factory Asks For Fire Protection

Routine Business Transacted At the Adjourned Meeting of the Common Council Last Night.

At an adjourned meeting of the common council last night Wilbur F. Carle spoke to the city fathers on the lack of fire protection at the Hanson furniture factory. The nearest main was on North Hickory street, which was put in for private use before the factory was built. The main is twenty-five feet below the plant and 350 feet from it. Those competent to judge say that the force would be half lost in case of fire and that the water could not be forced half the height of the building.

Alderman Rice brought up the condition of the Jackson street bridge. The committee was authorized to fill in that portion of the main channel and the southerly side of the river as they see fit. The estimated cost is \$1,500, and the work will be commenced immediately.

Alderman Rice from the highway committee reported in favor of adopting the report of the street assessment committee on the grading of Division street. Also the plans and it was so ordered.

Alderman Valentine introduced an ordinance drawn up in favor of the Janesville Water company, requiring the maintaining of a metallic circuit return by electric railway companies with the end in view to prevent electrolysis on the company's water pipes. The ordinance was given its first and second reading and referred to the highway committee.

A number of street improvement orders were made and minor petitions granted and the council adjourned.

Demographic Day

AT THE CARNIVAL

GEORGE F. WILLIAMS SPEAKS TO MADISON PEOPLE.

The Capital City Street Fair Is In Full Swing and Is Drawing a Great Crowd of Visitors—Sophomore's Defeat the Freshmen 61 to 79.

Madison, Oct. 18.—Yesterday was democratic day in the carnival program, and the adherents of Bryan were given an opportunity to recover themselves from the blows of Senators Hanna and Frye on Monday night.

George Fred Williams of Boston, had been advertised as the speaker of the evening who would administer the antidote which would cure the democrats of the effects of the dose administered by the distinguished republican statesmen.

To fill in the time until Mr. Williams' train should arrive, Captain Patrick O'Farrell delivered a harangue in which the broadness of his Irish accent coupled with the vigor of his delivery furnished a poor relief from the narrowmindedness of his views and the weakness of his arguments.

Mr. Williams' speech was eloquent and ingenious but fell short of evoking the applause which followed the plain common sense remarks of Senator Hanna in the same place last Monday night. Few students attended the meeting and the hall was less than half filled. The Philippine question was mentioned in passing and the 16 to 1 issue was utterly ignored. Dozens of people left the hall before the close of the meeting.

Carnival and Street Fair

The Carnival and Street fair has been in full swing for the last two days, and is enjoyed alike by all visitors, whether from the neighboring towns or the nearby rural districts. The Carnival people seem to enjoy the visitors, too, especially ruralites, for business is good for everybody, from the vendor of rubber balls and canes, to the exhibition of the human gorilla, who eats live reptiles while you wait. Afternoons and evenings the carnival spirit reigns supreme, and hilarity runs riot.

Friday night is being advertised as "Students' night," and will probably be the liveliest night of the week.

GREAT INCREASE.

Farm Values Have Been Improved to a Marvelous Extent.

Gain of Over a Billion Dollars for Farmers So Far This Year.

Prices They Received as Compared with Those of Former Democratic Times.

Convincing Argument in Favor of the Election of McKinley and Roosevelt.

The farmers are enjoying a remarkable era of prosperity under the republican policy of protection at home and trade expansion abroad, which brings to the producing classes the best sort of markets at home and in lands across the sea.

Farm products in the United States in 1900 are worth \$1,212,000,000 more than the same products were in 1896. These figures are official, and are from the United States department of agriculture.

The increase comes in more crops and in the aggregate value of live stock on the farms. The gain in farm wealth is shown in the following table:

Increase in nine crops.....\$ 710,722,617
Increase in live stock..... 501,444,474

Total gain to farmers...\$1,212,167,091
The value on the farm of the nine principal crops raised in the United States was \$710,722,617 larger this year than in 1896.

The figures are supplied by the department of agriculture, those for 1900 having just been completed. The details by crops follow:

FARM VALUES.	1896.	1900.
Corn.....	\$513,571,912	\$859,810,000
Cotton.....	219,976,427	482,750,000
Wheat.....	265,698,900	350,000,000
Oats.....	129,248,889	182,137,500
Potatoes.....	95,870,362	97,820,000
Barley.....	38,294,998	22,337,500
Rye.....	8,346,399	14,242,500
Hay.....	609,235,564	671,000,000
Buckwheat.....	4,521,424	8,350,000
Total.....	\$1,996,334,883	\$2,707,067,506

American farmers received almost \$115,000,000 more money for their wheat this year, under republican prosperity, than they did in 1896 under democratic depression. This year the people can afford to buy bread. In 1896 thousands of them were starving and begging for bread.

The American farmers received \$346,000,000 more money this year for their corn crop than they did in 1896.

They received nearly \$164,000,000 more money for their cotton than they did in 1896. This year the mills were open and there was a demand for cotton.

American farmers received nearly \$12,000,000 more money for their crop of oats this year than they did in 1896.

They received nearly \$22,000,000 more money for their potatoes this year than they did in 1896. People could afford to buy potatoes this year, as the mills were open and good wages were being earned.

They received over \$14,000,000 more money for their barley this year, and barley is one of the smallest of the staple crops.

They received almost \$6,000,000 more money for their rye crop, which is another of the small staples.

American farmers have also gained over \$500,000,000 this year in the value of their live stock as compared with 1896, according to the department of agriculture's figures. Thus we have:

Inc. this year. \$710,722,617 in 9 staple crops.
Inc. this year. 501,444,474 in live stock.

A LESSON IN VALUES.

DOLLAR for dollar, pound for pound, there is more in Ivory Soap than in any household soap. It is easy to find a cheap soap; but to find purity and low price in a single soap is not easy. They combine in Ivory Soap. You can afford to use it in the laundry; you can not afford not to use it elsewhere. It is vegetable-oil soap, in the cheapest form in which it can be procured. You pay nothing for a fancy box, wrapper or perfume. It is all in the soap! It floats.

Total Inc.....\$1,212,167,091 in farmers' property in 1900.

The farmers will not throw away the substance for the shadow. They will vote for a continuance of republican prosperity as against a return of democratic adversity. They will vote for McKinley and Roosevelt. They will not vote for Bryan and Stevenson.

BRYAN IN THE EAST.

Starts on His Tour of Empire State—Roosevelt in Ohio.

New York, Oct. 18.—William J. Bryan addressed 15,000 persons at Madison Square garden last night, speaking nearly two hours; then, driving to 24th street and Madison avenue, he spoke to 25,000 persons who had pressed about a stand erected at the street's intersection. A half hour later he was in Tammany hall, where an audience of 3,000 awaited him, and at 10 o'clock he appeared in Cooper Union, which was crowded to the doors.

Mr. Bryan breakfasted with ex-Gov. Stone of Missouri, Congressman Richardson, his private secretary, and Judge Carrow, and at 8:30 the start was made for the Grand Central station to take a train for up-state points. "I'm in good shape," said he, "and I understand I'm to have an easy time of it up the state."

Then he laughed at his joke, for the fact is that his tour of the Empire state promises to be the most arduous of the campaign. His train left the Grand Central station at 9:02.

ROOSEVELT TALKS TO CROWDS.

Rough Rider Addresses Great Multitude in His Ohio Tour.

Columbus, O., Oct. 18.—Gov. Roosevelt addressed the biggest crowds seen in Ohio during a political campaign since Blaine's tour in 1884. He made nine speeches at different points, and owing to the condition of his voice spoke briefly here. Replying to Mr. Bryan on the Philippine question, he said:

"Men of Ohio, if old Anthony Wayne had waited until he got the consent of the Indians before he fought the battle of Fallen Timbers, Ohio would be an Indian hunting ground today. There were anti-imperialists in those days, who did not wish to see it settled, but Thomas Jefferson, when he closed the Louisiana purchase and afterward issued this order to the general in command, to the man corresponding to MacArthur or Lawton in the Philippines—Gen. Clarke said: 'In case peaceable possession is refused, then force must be used'—not force with the consent of the governed—force. Gentlemen, you could not describe better than in these words of Jefferson just exactly what under President McKinley is the policy we are pursuing in the Philippines."

MOM HITS ROOSEVELT.

Cleveland, O., Oct. 18.—Gov. Roosevelt was attacked at Newburg, near Cleveland, last night. His speech was interrupted, and when he attempted to go on a shower of missiles fell around him. One stone hit him full on the side of the head. He did not lose his temper, but smiled and bowed as if delighted, while the crowd yelled and hooted as though anxious for a fight.

Many Speeches by Hanna.

Huron, S. D., Oct. 18.—Fifteen campaign speeches, garnished with band-shaking and autograph writing, taught Senator Hanna yesterday what the "strenuous life" is. He likes it. Today he worked even harder and at Sioux Falls said good-by to Mr. Pettigrew's state in the home of Mr. Pettigrew.

Bryan in Albany.

Albany, N. Y., Oct. 18.—William J. Bryan spoke at Peekskill, Fishkill, Cohoes and other places, reaching Albany in the evening. His principal address here was at the Empire theater.

The Janesville Art League extends an invitation to the club women of Janesville to hear Mrs. Herman J. Each member of the Art League is entitled to invite one guest not a member of the Woman's club.

MR. BRYAN'S WARNING

"If there is anyone who believes that the gold standard is a good thing, or that it must be maintained, I warn him not to cast his vote for me because I promise him it will not be maintained in this country longer than I am able to get rid of it."—Hon. William Jennings Bryan, Knoxville, Tenn., Sept. 16, 1896.

INCOMPETENT.

The Racine Journal in an editorial on Bryan's incompetency should be elected, says among other truthful things "It is shown that Mr. Bryan can easily instruct the officials of the treasury to pay out nothing but silver for government obligation. He can proceed as did Mr. Cleveland to neglect to issue certain needed instructions, or revoke certain instructions and then not put in force others and the thing is done. What limited government obligations there are that are ordered paid exclusively in gold would probably be paid, but of these none are due now."

The more the ability of Mr. Bryan is studied, the more apparent it becomes that his election to the office of chief magistrate would be a calamity to the nation. Mr. Bryan is a theorist pure and simple. He belongs to the class of leaders who pose as reformers, and while more sane than Eugene V. Debs, because his vagaries travel in a different channel he is all the more dangerous, because of the fascination that surrounds his creed. There is a large class of people in the world who believe in a leader that advocates the doctrine of acquiring something for nothing.

The free and unlimited coinage of silver to their notion would mean more money in circulation, and in some mysterious way a part of this increase would flow into their pockets. Every farm would be a silver mine and the product could be taken to market and turned into dollars just as readily as corn and potatoes. Everybody would be mining silver, because the government had fixed a standard basis on the ratio of 16 to 1 and the market would not fluctuate. If it was too much like work to dig the metal out of the ground a supply could be obtained from Canada or Mexico at fifty cents on the dollar and the United States could coin it and stamp it a silver dollar and it would pay just as well as it would to mine it.

To the minds of this class of peo-

ple thinkers the government is all powerful. It can manufacture money on a printing press or at a mint by simply using a stamp. They seem to forget the fact that this intangible thing called the government is neither a bank nor a gold mine. That every dollar that passes through its treasury is contributed by the people and dispensed for their benefit.

The national government with headquarters at Washington is simply the agent of the people. If the affairs are intelligently administered, it requires honesty, intelligence and good common sense on the part of the public servants who represent them. These positions of trust are too important and the responsibilities too great to admit of the employment of theorists like Mr. Bryan, and the men who are shouting for him. Mr. Bryan and his followers may be perfectly honest in belief, yet thoroughly incompetent to administer the affairs of a great nation. That the people believe this to be true will be declared with no uncertain sound when the ballots are counted in November.

THE STATE OF KENTUCKY.

The LaCrosse Republican and Leader says "To all who are following the reports of the trial of Henry Youtsey in Kentucky, it must be apparent that he is not being prosecuted but persecuted."

People who have watched the principal factor. The campaign in course of events for the past twelve months in Kentucky have long since decided that persecution has been the progress there now is not a political campaign but simply a test of strength between the Goebel and anti-Goebel factions.

After defeating the will of the people as expressed at the polls last November, and accomplishing this outrage under cover of a law prepared by Mr. Goebel for that express purpose, and after suffering the long train of dire consequences that followed, including murder, the state is still engaged in a work of political persecution that will add nothing to its honor, but many years to its infamy.

That the slayer of Mr. Goebel should be punished no one questions, but that the republican party in the state should be traduced and maligned in consequence is another question entirely.

It is about time that the state of Kentucky commenced to sacrifice personal spite. The people of other states have scant sympathy for that kind of warfare.

The address delivered by Senator Whitehead at the Crescent Saturday night, was one of those treats rarely given audiences to enjoy in a political campaign. There was no story telling, there was no pandering to the galleries; there was not a single undignified suggestion or reference; there was no abuse of candidates; there was neither ridicule nor sarcasm. In place of all these usual accessories of the average political speech, even when delivered by distinguished campaign speakers, there was a dignified, scholarly address, a logical discussion of current issues, a lucid exposition of principles, and a splendid appeal to better citizenship. The address might have been delivered from a pulpit without subjecting the speaker to the slightest degree of censure from reasonably minded people, so free was it from objectionable features. That it was listened to intently by an audience, which packed the Crescent from pit to gallery, is evidence that this character of campaign discussion is popular and effective.—Fond du Lac Commonwealth.

Governor Shaw not only delighted his audience last evening, but he succeeded in convincing by clear statement of fact and strong argument that the only issue of the campaign was opposition to the present administration. Imperialism, trusts and free silver went down before the logic of his statements like straw men. The state of Iowa has occasion to be proud of her governor. He belongs to the class of men that bring honor and intelligence to a commonwealth. He is sound and convincing on the political questions of the day and is doing good work for the republican party.

Mr. LaFollette is doing good campaign work in his tour about the state. Janesville people will give him a hearty welcome.

Straw votes may be unreliable but when they all point one way they have some significance.

Vote for McKinley and prosperity.

It has long been rumored that the bolero would disappear. This is not yet the fact. It has, however, changed its form and is cut quite short at the back, leaving the hips bare, but the long fronts often extend some inches below the waist line.

GOV. SHAW ON THE ISSUES OF THE DAY

HE SAYS THE MONEY QUESTION IS STILL PARAMOUNT.

Large Audience Faced Him At the Grand Opera House Last Night—Speech Pleased Those Present, Very Much—His Ideas On Trusts and Imperialism.

Leslie M. Shaw, governor of the state of Iowa, entertained a large and enthusiastic audience at the Myers Opera House last evening. Governor Shaw is a pleasant speaker and has a happy way of getting his points fairly before his audience. His speech was interspersed with witty sayings and at no time was he at a loss for a reply to all questions that were asked him. He took up the principal points in issue. The currency question, tariff, trusts and imperialism. Many things about these questions that have seemed blind to the average man were explained away and put before him in big letters. His audience was a little slow about warming up, but after he once started he had no trouble in bringing frequent applause.

Gave Great Satisfaction. Governor Shaw's speech of last evening gave universal satisfaction. It is the verdict of all who attended the meeting that it is one of the best political speeches ever delivered in this city. Any man that did not take advantage of the chance to hear this talented man missed a treat. His many pleasing stories gave the speech a spice not usually found in political arguments.

Among the prominent republicans on the stage were Hon. Ogden H. Fethers, Hon. Wm. G. Wheeler, Stewart B. Hedges, W. C. Whitford, President of Milton College, and others. A delegation of forty came from Milton to hear him.

Governor Shaw arrived in the city yesterday morning from Milwaukee and was quartered at the Grand Hotel during his stay. He was taken about the city in a carriage yesterday afternoon and expressed himself as being much pleased with the looks of the city. He stated that he had been on the stump for the republican party for the last six weeks and during that time had not had but two small audiences.

He followed the plan of making his speeches as impersonal as possible and was not in favor of using names in campaign speeches. He was much afraid that he would not have a full house last evening and was agreeably surprised at the number that gathered at the Opera House to hear him. He was escorted to the Opera House by the imperial band, which played a selection on the stage.

Capt. Norcross Presides. Capt. Pliny Norcross was master of ceremonies and as a starter introduced Col. E. O. Kimberly to the audience. He sang a campaign song entitled, "Good-bye Bryan." It was liberally applauded by the audience.

Captain Norcross in introducing Gov. Shaw to the audience referred briefly to the state of Iowa and what a wonderful state it had grown to be. That if the principles advocated by Mr. Bryan for the Philippine islands had been carried out in this country after Iowa and other territory had been purchased from France, Iowa would still be a howling wilderness and he would not have the pleasure of introducing its governor to this audience. Gov. Shaw spoke as follows:

Sole Issue Is Money. Fellow citizens, the sole issue of this campaign is money, worthy of your consideration, is the one involved in the "first battle," but now sought to be concealed behind the mask of imperialism. And what is involved in the money question? We listened to academic discussions four years ago, not until we were tired, but the remembrance of them makes us tired.

"After imperialism has faded away—and that time will soon arrive—after the issues growing out of the war with Spain have been satisfactorily solved, after trusts have had their day and have fallen to pieces of their own weight and because they violate the inexorable laws of competition, our prosperity will still depend upon sound financial and economic legislation and upon conservative administration.

Trusts Are Vicious. "It will be impossible to make the trust problem an issue in this campaign. All parties agree that trusts are vicious, and all parties unite in denunciation of them; but only the republican party seeks a remedy. In 1890, the republican party enacted the Sherman law, which rendered these combinations illegal and the participants criminal. During the four years of Mr. Cleveland's administration every United States district attorney was a democrat; but if any of them ever brought suit to dissolve a trust, or punish the promoter of one, the incident has been kept unnecessarily from the public.

What Is Imperialism? "I do not know whether anti-imperialism so-called has aroused any interest in this country or not. In my state we fought that issue out last year and won it hands down. The republican majority was four times as large as two years before. Do you know what imperialism is? I do not. I have watched the press pretty carefully; read speeches; looked up the definitions of the word; and listened to democratic agitators by the hour, and I confess that I cannot get much light or satisfaction out of it.

Our Title to the Philippines. "All question as to our right to acquire the Philippines, and our title to

them when acquired, were merged in the ratification of the treaty. Certainly no one believing we were wanting in constitutional authority to acquire the islands would have urged the ratification of the treaty. Having ratified the treaty, having acquired the islands, having assumed sovereignty over them, no patriotic citizen of the United States will call in question our title.

"That this is a nation has been fully settled. Being a nation it has all the rights, privileges, powers, and perogatives of a nation; and that if any man believes anything else, or that we are any less a nation than any country whose flag commands respect, he is welcome to believe anti-imperialism the paramount issue of the campaign, and to vote for the democratic nominee. The only question left open is the determination of the nation's present and future policy.

New Party Alignment. "In all seriousness, and as a loyal American citizen rather than as a partisan, let me urge, that in the new alignment of parties inaugurated in 1890, and perhaps not yet perfected, every thinking man who can hold his conduct in obedience to his better judgment, who loves his country more than he loves his party traditions, unite his political fortunes with the party charged with the responsibility of solving these questions, admittedly momentous and far-reaching in influence, an din November next cast his vote for that hero of heroes, that prince among statesmen, that seer among wise rulers, William McKinley."

REPUBLICANS GO THEM ONE BETTER

WILL PLAY DEMOCRATS FOR A BOX OF BALLS A HOLE.

The Line Up of the Partisan Game On the Buckle Links Tomorrow Afternoon—If the Democrats Are Sports This Is Their Opportunity.

The republicans are not entirely satisfied with the preparations made by the democrats and will make them one that will be worth playing for. A box of balls around is a mere dagittie and as long as the democrats are so confident of winning they surely will be pleased to get a larger prize to play for.

The republicans suggest that they play the match for a box of balls a hole or more if they wish. The republicans know the democrats are sports and would much rather play for a large prize than a small one, so suggest that a box of balls a hole would be more in keeping with the spirit of the game. The line-up for tomorrow will be as follows:

Rep.	Dem.
Al. Schubert,	C. C. MacLean,
Frank Einfeld,	J. P. Baker,
Leo Brownell,	Fred Baker,
S. D. Tallman,	Francis Grant,
Harry Carter,	Charles Schaller,
Orion Sutherland,	Harry Kirkland,
Frank Echlin,	Mark Bostwick,
Chas. Aelterberg,	C. P. MacLean,
Geo. Brownell,	H. V. Allen,
Ross King,	Art Valentine,
Wilson Lane,	P. J. Mount,
A. J. Harris,	
Frank Blodgett,	
W. A. Jackson,	
Edwin Peterson,	
Harry McNamara,	

The above list is subject to change. It is hoped that all those named will appear on the grounds tomorrow afternoon. The game will be called at two o'clock. The closest game of the day will probably be between P. J. Mount and Wilson Lane.

"WOC, THE STORY OF A DOG"

Rev. Jenkins Lloyd Jones of Chicago, Made An Address.

The Rev. Jenkins Lloyd Jones of Chicago, a great lover of nature and the animal kingdom, spoke to a fair audience in the Court Street M. E. church last night. He was introduced by W. G. Palmer, president of the Humane society, and under the subject of "Woc; the Story of a Dog," he made an interesting talk.

At the close of the address Dr. J. B. Whiting endorsed the words of the speaker and added some anecdotes which were listened to with pleasure. An opportunity was given for people to join the society and several new members were secured.

"The gold standard," declared Mr. Bryan in his Minnesota speech in 1896, "would destroy the opportunity to work." Is Mr. Bryan depending upon the votes of the idle this year?

The second woman was Miss Belle Ashton of Sanford, who was admitted early this summer.

Preparatory to cooking string beans break off both ends of the pods and after stringing pare both edges lightly with a sharp knife. It shows a slovenly and careless habit if the stringy fibers are left, and to fastidious eaters nothing can be more disagreeable. The entire dish is often rejected when the unpleasant labor of separating the strings is thus contemplated.

Mrs. Elizabeth Cady Stanton does not approve of the recommendation made by several New York magistrates that wife beating should be punished by flogging. She says, "The real cure for wife beating is to be found not in disciplining an occasional brute, but in teaching men to respect women."

LATE TELEGRAPHIC NEWS.

"BOXERS" SLAIN BY HORDES

Report of 6,000 of Them Killed in Battle.

TO MASSACRE FOREIGNERS.

Prince Tuan Gives Advice to the Reformers Concerning a Proposed Slaughter—Edict Reported to Be a Forgery—Wu Calls on McKinley.

Shanghai, Oct. 18.—It is learned from native sources that the Shantung Boxers are returning home.

The troops of Kuan Shi Kai, viceroy of Shantung, administered a crushing defeat to 12,000 of them outside of Tsangshao, near the Chilli border. It is said that the leaders of the Boxers and 6,000 men were killed.

Ready to Massacre Foreigners.

London, Oct. 18.—A dispatch to Dail's news agency from Shanghai of yesterday's date says Prince Tuan has sent a dispatch to the Mandarin and heads of guilds in Shanghai announcing that the court is now safe and exhorting them to have patience. The dispatch points out that when the Pei-Ho is frozen the cold will decimate the allies, while the falling Yangtze Kiang will only admit of the use of small gunboats. He urges that the arsenal be kept constantly at work and that every one be in readiness when the moment arrives for the massacre of all foreigners. A news agency dispatch from Peking, dated Oct. 15, says it is believed there is a recent edict providing for the punishment of officials responsible for the Boxer outbreak was a forgery and was concocted for the purpose of preventing the advance of the expedition to Pao-tung-Fu. Prince Ching and Li Hung Chang deny all knowledge of the existence of such a document.

Wu Calls on the President.

Washington, D. C., Oct. 18.—Wu Ting Fang, the Chinese minister, paid a personal visit to the white house to present to President McKinley a communication received by telegraph from the emperor of China and addressed to the president of the United States. Minister Wu had previously called at the state department, where he told Secretary Hay of the imperial communication. The arrival of Wu at the white house attracted considerable attention there, as much from the fact that it is unusual for a member of the diplomatic corps under the rank of ambassador to personally call on the president as that the Chinese plenipotentiary attired in oriental dress was in the horseless carriage of the "foreign devils." Wu was with the president about twenty minutes. After his departure the president sent for Secretary Hay and discussed with him the Chinese emperor's communication, and the nature of the answer which should be returned. The letter from Kwang-Su contains merely an expression of his appreciation of the attitude displayed by the president in the Chinese troubles. It thanks the president for his conciliatory policy, and shows that the emperor is convinced that this government has no selfish motives in its dealings with China and the powers.

THANKS MISSIONARIES.

Minister Conger Expresses Gratitude for Their Help During Peking Siege.

Victoria, B. C., Oct. 18.—The following letter was given by United States Minister Conger to the missionaries at Peking:

"Besieged American missionaries, one and all of you, so providentially saved from certain massacres, I desire in this hour of deliverance to express what I know to be the universal sentiment of our diplomatic corps, sincere appreciation of and profound gratitude for inestimable help which the native Christians under you have rendered toward our preservation. Without your intelligent and successful planning and the uncomplaining execution of the Chinese, I believe our salvation would have been impossible. By your courteous consideration of me and your continued patience under most trying occasions, I have been most deeply touched, and for it all I thank you most heartily. I hope and believe that in God's unerring plan your sacrifices and danger will bear rich fruits in a material and spiritual welfare of people to whom you have so nobly devoted your lives and work. Assuring you of my personal respect and gratitude, very sincerely yours, "E. H. CONGER."

Deposits Gold Seized in China.

New York, Oct. 18.—Secretary Long has deposited in the treasury the draft for \$278,000, representing the gold seized by the American marines at Tientsin, says a Washington special to the Herald. According to Treasurer Roberts, an act of congress will be necessary to withdraw it. Administration officials insist that the money is being held in trust and is not regarded as spoils of war. Should an indemnity be awarded the United States against China the amount of the deposit will be credited to China's bill.

Runs with Knife in Stomach.

Chicago, Oct. 18.—Joseph Konovoras was stabbed in the stomach by Louis Karowitchiss, a recent arrival from New York, who escaped before

the police arrived. The cause of the fight is not known. After he had been stabbed Konovoras ran from the saloon, with the knife still sticking in the wound. He ran across the Clark street bridge, screaming. An officer was surprised to find that the man was dangerously wounded and that the knife was still buried in his stomach.

Robe the Mails of \$15,000.

New York, Oct. 18.—Tempted by the knowledge that thousands of dollars were within his grasp and fortified by an intimate acquaintance with post-office methods, some one Monday night robbed the United States mail of the entire receipts for the day of station H, the "second general postoffice," at Forty-fourth street and Lexington avenue. Such an occurrence is unprecedented in the annals of New York. Subordinate officials place the loss at from \$15,000 to \$40,000.

Burglars Loot Postoffice.

Fond du Lac, Wis., Oct. 18.—The postoffice here was entered by burglars during the night, and a large amount of stamps, money and registered letters taken.

The burglars used a "spreader" to remove the dial from the vault door and dynamited their way through the second door. Inspector Bird states that the job was done by old hands at the business.

HELP FOR WOMEN

WHO ARE ALWAYS TIRED.

"I do not feel very well, I am so tired all the time. I do not know what is the matter with me."

You hear these words every day; as often as you meet your friends just so often are these words repeated. More than likely you speak the same significant words yourself, and no doubt you do feel far from well most of the time.

Mrs. Ella Rice, of Chelsea, Wis., whose portrait we publish, writes that she suffered for two years with bearing-down pains, headache, backache, and had all kinds of miserable feelings, all of which was caused by falling and inflammation of the womb, and after doctoring with physicians and numerous medicines she was entirely cured by

LAST BARRIER BROKEN DOWN

Great Coal Strike Is Now as Good as Settled.

TOTAL COST OF THE STRIKE.

It is Estimated at Over Thirteen Million Dollars—The Miners Lose More Than Four Million Dollars in Wages—Strike Not Over, Says Mitchell.

Hazleton, Pa., Oct. 18.—The last barrier to a settlement of the great miners' strike has been broken down, and from present indications a formal order from union headquarters telling the men to return to work will come within a few days.

The victory belongs to the workers, for not only are all their demands formulated at their convention at Scranton on Saturday last granted, but the operators have agreed to pay the increase in wages for six months, which takes it beyond the date set by the men, April 1. An agreement by the Philadelphia and Reading Coal and Iron company and the Lehigh Valley Coal company to abolish the sliding scale, reached at the conference of operators in Philadelphia, marked the final stage in the negotiations. All other conditions fixed by the miners were accepted by the mine owners.

Mitchell Says Strike Will Continue.

President Mitchell, however, sees no sign of peace. He declares that the strike is by no means over; scarcely nearer an end, in fact, than it was before the Reading company granted the strikers' demands. Those who agree with him, however, are few in number, the general belief being that the men will be back at work within a week. The Reading company controls over 20 per cent of the anthracite output, and the other operators are expected to follow the example it has set within a few days. It is predicted by the more hopeful here that the strike will be officially declared off by Saturday. This, however, depends on the promptness with which the other companies accept the Scranton ultimatum. Should any number hold out against the strikers' demands peace will be delayed. Encouragement came when Calvin Pardee & Co., independents, posted a notice similar in general terms to that issued in Philadelphia this afternoon.

Accedes to All the Demands.

Philadelphia, Oct. 18.—The conference resulted in an agreement to accede to the demands made by the mine workers' convention. The Philadelphia and Reading coal and iron company at once issued the following statement:

"It hereby withdraws the notice posted Oct. 2, 1900, and, to bring about practical uniformity in the advance of wages in the several coal regions, gives notice that it will suspend the operation of the sliding scale, will pay 10 per cent advance on September wages till April 1, 1901, and thereafter until further notice; and will take up with its mine employees any grievances which they may have."

The Lehigh Valley company, in whose region the sliding scale is also in operation, issued a similar notice, as have also the individual operators who were represented at the meeting. This meets all the demands of the strikers and means the immediate ending of the strike.

Eleven Strikers Arrested.

Hazleton, Pa., Oct. 18.—Eleven Slavonian strikers who are alleged to have been the leaders of a mob which started a riot at Onida last Wednesday, when one private guard was killed and several persons were dangerously injured, were arrested today at that place and taken to Pottsville for a hearing. The officials of Cox Bros. & Co., whose mine was the object of attack that day, caused the arrest of the eleven men but they refused to say on what charges they were taken into custody.

PERISH IN A TYPHOON.

Great Storm That Swept Japan Cost Hundreds of Lives.

Vancouver, B. C., Oct. 18.—The Empress of Japan brings news that the typhoon at the close of September was felt over the entire Japanese group. A vast amount of property ashore and afloat was destroyed and there was heavy loss of life. Hundreds of houses were blown down, flooded or otherwise destroyed. At Tokyo three lives were lost.

Two hundred Naniwa fishermen were blown out to sea and all are believed to have perished. A number of vessels were reported wrecked, mostly junks and small schooners.

The steamer Urato Maru was stranded off Mikokujima and probably will be a total loss. The Yachijo Maru, a sailing vessel of 920 tons, was wrecked in Shimizu bay and all on board were lost. The 200-ton schooner Shintoku Maru was wrecked off Karaura.

The steamer China of the Pacific Mail Steamship company had a stormy voyage from Yokohama to Kobe. Considerable damage was done aboard the vessel. Some of her boats were smashed and her rails were swept away. The vessel shipped two heavy seas, which placed her in serious danger for a time. At Yokohama the wind blew forty miles an hour and the new Christ church was destroyed.

CAPTURE ALVEREZ AND STAFF.

Capt. Elliot's Men Take Important Leader of Filipinos.

Manila, Oct. 18.—Under cover of a stormy night Captain Elliot of the Fortieth Infantry surprised the rebel headquarters near Oroquieta, Island of Mindanao, and captured without fighting General Alvarez, with his staff and twenty-five soldiers.

The capture is important, and will tend to pacify the district. Alvarez had been for a long time provoking hostilities in Mindanao. It was he who effected the disastrous attack on Oroquieta some time ago, and he was preparing another attack when he was captured.

Detachments of the Twenty-sixth and Eighteenth regiments engaged the rebels near Tubagan, in southern Panay, routing them, killing twenty and wounding many.

Points Evils of Philanthropy.

Rockford, Ill., Oct. 18.—At the convention of Woman's clubs Miss Charlotte Teller of Chicago read a short paper entitled, "The Evils of Philanthropy," which provoked a spirited discussion among the delegates, the general trend of the paper being toward socialism. Miss Teller sought to show that charity was degrading both to benefactor and beneficiary, that it was not democratic because it presupposed a condition of power on the one hand and dependence on the other, and that it aggravated and prolonged poverty, as it dealt only with surface conditions and did not strike at the root of the disease.

Saves a Ship and 200 Lives.

Seattle, Wash., Oct. 18.—The steamer Charles D. Lane arrived this afternoon from Nome after one of the most eventful voyages yet made between the new gold fields and Seattle. The steamer broken down at sea and was for three days adrift in the Pacific, with 200 souls on board. A dead calm prevailed until the boiler tubes, which had been blown out, could be repaired. Eric Morelander, a passenger, was the master mechanic who made the repairs, and the ship's officers gave him \$1,000 for the two days' work.

Yontsey Suffers a Relapse.

Georgetown, Ky., Oct. 18.—Henry Yontsey's condition has taken a turn for the worse. He has again become delirious and cannot take nourishment except hypodermically. The defense in his trial closed, and it is expected the case will be given to the jury within a few days unless the prisoner's condition becomes so serious as to make a postponement necessary. The testimony taken for the day was in contradiction of some of the stronger points made by the prosecution.

Seek Fortune of \$20,000,000.

New York, Oct. 18.—The family of the late John Clark of New York have engaged counsel to try to obtain for them the estate of his brother, Imlay Clark, who died a few years ago in Australia leaving a fortune estimated at \$20,000,000. The dead man was an owner of gold mines.

The heirs are James N. Clark, Mrs. Annie Alward, Mrs. Emma Williams, all of Newark, and James W. Clark, whose present whereabouts are unknown.

Mary O'Donnell Acquitted of Murder.

Portland, Ind., Oct. 18.—So weak from illness that she could scarcely walk, Mary O'Donnell left the courtroom here a free woman, the jury before which she was tried having returned a verdict acquitting her of the alleged murder of Frank Whitsell at Dunkirk, March 8, 1899.

THE STRONGHOLD OF THE REBELLION.

REV. SAM JONES ON TRUSTS.

Wealth and Brains Combined Do Much for the Good of the People.

"The large trust and combinations already formed and being formed by aggregations of capital are considered hurtful to the masses and the common people. This is a theory. Theoretically, a thing may be so, and practically it may be very untrue. When we speak of trusts and combines we think of the Standard Oil trust, the sugar trust, the tobacco trust, etc. When the Standard Oil trust was formed I was paying 40 cents a gallon for kerosene oil; I am getting it now for ten cents a gallon. I was paying 12 1/2 cents for sugar several years ago, but when the combines set in we got it at 5¢. When the whisky trust was organized I was in hopes it would put up whisky where the poor devils couldn't get it, but they have seemed to cheapen that down to where they can pay the government \$110 a gallon revenue on it and yet sell it for \$1.27, which demonstrates that they are making it and letting the public have it at about 17 1/2 cents a gallon, including the barrel.

"There is no doubt about the aggregation of wealth, with brains controlling it, that they can manufacture any article cheaper than it is or has been manufactured on a small scale. I have watched the progress of events and the processions as they marched. I have yet to know of a single instance where combines and trusts hurt the masses or permanently raised the price of any product."—Rev. Sam P. Jones.
